

Fort Campbell

BRAC 2005 Recommendation:

Fort Campbell remains one of the Army's premier maneuver installations with one of the larger concentrations of Operational Army units. The BRAC 2005 recommendations validated the stationing of the Infantry Brigade Combat Team (BCT) temporarily stationed at Fort Campbell in FY 04, and retains the other BCTs at Fort Campbell. However, the Army will relocate one attack aviation battalion from Fort Campbell to Fort Riley, to balance the Operational Army units across its major installations in order to enhance readiness, deployment and training. The aviation battalion will be a part of a Multifunctional Aviation Brigade that will form at Fort Riley. The Army will also consolidate various Reserve Component facilities and construct a new Armed Forces Reserve Center at Fort Campbell.

Gains:

- 52d Explosive Ordnance Group from Ft Gillem
- Armed Forces Reserve Center
- Validated temporary stationing of 4th BCT
- Various units returning from overseas

Losses:

- Attack aviation battalion to Ft Riley
